

AP AUTOMATION FOR SAGE 300 IS PAPERLESS AUTOMATED SUPPLIER INVOICE PROCESSING INCORPORATING DATA INGESTION AND MACHINE LEARNING TECHNOLOGY TO ELIMINATE MANUAL DATA ENTRY, SPEEDING UP APPROVALS, DELIVERING PROCESS EFFICIENCIES AND GREATLY IMPROVES ACCURACY.

Sage 300

Our AP Automated solution extends to Procure-to-Pay (P2P) providing you with a comprehensive paperless approvals process which significantly reduces costs.

- » Pacifictech's APA incorporates Payables & Purchasing Workflow & Web-based Connected Services provides seamless connectivity into Sage 300's core AP modules from anywhere at any time. Being easily configurable to how you operate, it delivers outstanding automation, flexibility and efficiencies for your business.
- » Incoming data invoices are submitted and ingested via Pacifictech's Document Processing Service (DPS) and are readily available for review within minutes. Changes are made with ease and invoices submitted to the approval workflow with little manual intervention.
- **Managing invoices** robust integration with Sage 300 allows DPS to manage supplier settings and the effective configuring of our Payables Workflow to align with your specific supplier invoice approval process.
- » Mobile and Connected Services complete approvals using PW-Web via a web browser or on a smartphone with our Pacifictech GO App. A user-friendly interface customized to your needs during set up ensures every requisition is straightforward and efficient.
- » **Pacifictech Expense** allows you to automate and streamline employee expenses to quickly process credit card, P-Card and expense claims within Sage 300. Captures receipts, categorizes expenses and processes claims efficiently giving you the ability to review and track company expense data.

Enjoy significant benefits **for your organization** and **people**

- » More control and streamlined processes reduce team workload and increase efficiency
- » Ease of use and customisation improve user satisfaction levels
- » Automation delivers improved productivity giving team members time back to focus on core activities
- » Cost-effective process automation reduces human error leading to improved quality
- » On demand access allows transactions to be carried out anytime and anywhere
- » Paperless solutions positively impact on office spaces and the environment

Additional Inclusions:

» PACIFICTECH E-INVOICE (PEPPOL) - is the direct exchange of invoices between suppliers' and customers' financial systems using the PEPPOL international standard providing an economical EDI type solution. Proficient integration ingests e-invoice data files into our DPS as part of AP Automation functionality with no additional cost. All you need is the DPS Connected Service, Payables Workflow and Workflow Documents modules.

» PACIFICTECH PUNCHOUT – WEB PROCUREMENT CATALOG - using PW-Web, customers can view and make purchases directly from their vendor's catalogue residing on the supplier's e-commerce site. They can search for, compare and choose what to buy before returning shopping cart items to PW-Web for approval and purchase order creation.

Pacifictech and Sage 300 - The Perfect AP Automation Fit:

SYSTEM REQUIREMENTS

The on-premise installation must be operating Sage 300, with the Payables Workflow, Workflow Documents (and any other Pacifictech products in the bundle) being activated and properly implemented.

The DPS Web Service must be accessible to the Pacifictech Web Infrastructure via the Internet; refer to the whitepaper on security implementation best practices.

PunchOut requires PO.
