

Receiving Invoices

Pacifitech's invoicing is tightly integrated with Sage Intacct and automatically ingests the eInvoice data file into the data capture service as part of the Pacifitech AP Automation functionality. From there, it gets routed directly into Intacct or your unique approval workflows. Pacifitech has engaged an Access Point Partner for the PEPOL component - which means that there are no additional requirements (or costs). All that is needed in order for customers to be able to start receiving eInvoices is the Pacifitech Connected Service.

BENEFITS & REWARDS

Direct and secure. eInvoices are impossible to lose, cannot be delivered to the wrong person, cannot be intercepted or be processed incorrectly. It minimizes the risk of fake or compromised invoices. Sender and receiver details are validated, audit logs kept, and strict protocols followed to ensure invoices remain secure.

Reduced Admin. eInvoicing saves time by not having to re-key or scan invoices, make corrections, or chase missing information. While you still need to apply your normal approval process before paying invoices, spending less time on admin allows greater focus on growing your business.

Reduced Time. eInvoices are processed faster than you think. An e-invoice reaches the right person within minutes - with minimal intervention the invoice can be directly processed within the administration software.

Improved financial visibility. Real-time insight into your company's finances, invoices can be processed directly in the accounting software enabling real-time insights into the purchasing process and allowing for more accurate financial management.

Cost savings. Your company will save money, around 62% of companies send invoices as email attachments. Calculating into averages - with shipping, material, and handling costs, due to time saved by reducing manual handling, eInvoices can save around \$1.65 per invoice.

Faster payment. It takes on average 25.1 days for a small business to be paid. By reducing manual processing, the potential for errors and delays, eInvoicing speeds up payment and improves cash flow.
